AMERIA PASTA FACTORY

KURCHATOV. KURSK REGION. RUSSIA

- ❖ Ameria pasta factory is located in the city of Kurchatov, Kursk region. Since 1999, the factory has been producing traditional types of Italian pasta.
- ❖ A wide range of pasta is produced under two trademarks. “America” TM pasta is made from soft wheat varieties of group B, while “Federici” TM pasta is made from durum wheat of group A. All pasta on the factory is produced according to the latest technologies on the modern equipment of the Swiss brand “Buhler” and Italian brand “Fava”. The assortment includes 15 different formats in packings of 250g, 400g, 500g, 2kg and 3kg.
- ❖ Since 2019, the Ameria pasta factory has launched the production line of whole grain pasta, as well as a new workshop for the production of gluten-free pasta. Russian-made Federici gluten-free spaghetti became the first in its category in Russia to receive the international certificate of conformity CUK-G-166 from the British National Celiac Society (AOECS).
- ❖ The production capacity of the gluten-free pasta line is about 16-16.5 tons per day.

Awards & Diplomas
